

AC / DC Locking Power Adapter Switching Power Supply

PRODUCT OVERVIEW

The CE-PS12V power supply is used as a replacement power supply for applicable CE Labs device. All products pass the plug and unplug test, and power-on test before shipping. Protections and Safety: Over-voltage Protection, Over Current Protection, Short Circuit Protection, Overheat Protection.

Specs:

- Input Voltage: 100V - 240V AC
- Input Voltage Frequency: 50/60Hz
- Output Voltage: 12.0V
- Output Voltage Range: Min. 11.4V, Max. 12.6V
- Output Current: 1.5Amp
- Cord Length: 56in.
- Connector Size: 5.5mm
- Certifications: UL, FCC
- Min. Efficiency: 77.75% @ 115Vac input and output at full load

Product Description:

Please ensure the correct voltage is selected for your device before connecting the power supply. This adapter delivers a minimum efficiency of 77.75% at 115VAC input when operating at full load.

The power supply includes built-in overcurrent and short-circuit protection and can safely withstand a continuous output short. Normal operation automatically resumes once the short condition is removed.

The unit is lead-free and RoHS compliant for enhanced safety and environmental compliance.

Note: Standard DC power connector sizes are defined by outside diameter (OD) and inside diameter (ID): 5.5mm OD / 2.5mm ID and 5.5mm OD / 2.1mm ID. This power supply is equipped with a 5.5mm OD / 2.1mm ID connector.
