

## Integrate Push Buttons with a CE LABS CE440 Media Players

### PRODUCT OVERVIEW

The CE-MPB10 is a USB interface adapter designed to integrate up to ten Molex connectors, enabling direct connection of multiple push-buttons to the CE Labs CE250 media player. Please visit our website at [celabs.com](http://celabs.com).

Using CE Scripts enables button assignments to perform programmable actions on the media player. (example: Start/Stop/Switch/Scale video and audio tracks, with blinking LED's)
